RAVEN KOBY TEMPORAZA

Email me: kobyraventemporaza@gmail.com   **LinkedIn:** linkedin.com/in/raven-koby-temporaza-0a309a326

Call me: +639703714292   **Address:** Block 2, Gordon Heights, Olongapo City

OBJECTIVE

Skilled web developer with expertise in Bootstrap, React.js, Ionic, android studio, and Angular, along with a strong background in Quality Assurance. Seeking a challenging role to leverage my development and QA skills to deliver high-quality, innovative web solutions and contribute to a forward-thinking company.

EXPERIENCE

IDESS IT   **Unit 8, 2nd Floor, Amires Bldg. Lot No. 7B Subic Commercial, SBFZ, Philippines**

Quality Assurance [Intern]   February 2024 - May 2024

- Conducted QA testing of website updates and new features to ensure compliance with project specifications and ticket requirements.
- Documented and communicated bugs to the development team for timely resolution.
- Checked that programmer revisions met specifications and resolved issues according to test cases.
- Coordinated with developers and project managers to align changes with project goals.

Full Stack Web Developer [Probationary]   May 2024 - November 2024

- Utilized the **MERN** stack (MongoDB, Express.js, React.js, Node.js) to develop and maintain dynamic web applications.
- Designed and implemented responsive user interfaces using React.js.
- Developed and integrated **RESTful APIs** with Node.js and **Express.js** for robust server-side functionality.
- Employed **object-oriented programming** principles to create scalable and maintainable code.
- Managed and optimized data storage and retrieval using **MongoDB**.

Skills

Skilled in MERN stack (MongoDB, Express.js, React.js, Node.js) for full-stack development, with experience using **Bitbucket** for version control and **ClickUp** and **Jira** for ticket tracking and project management. Proficient in **Atlas** for database management, and adept at handling project trees and maintaining efficient workflows.

PROJECT

- FitQuest Junior: A Gamified Fitness Tracker and Daily Task Recommender Application for Kids using Matching Algorithm and Ionic-Angular.

- SportsKo: Inventory and borrowing system for PE department with data visualization and real-time notification.

EDUCATION
